Skilled Handicraftsmen are one of the main causes of income for the few and marginalized communities residing in tropical countries. Unfortunately, the scarcity of skilled manpower results in the delay of development. This project is aimed at a) providing an easy but reliable way for handicraftsmen to acquire a skill, and b) educating the young and skilled handicraftsmen to engage more actively in their communities. This project will contribute to the development of community services, and increase income of people who often are not part of the mainstream. If a woman lives in a village with a money lender, she will not have the ability to easily buy health food since the health food merchants may not accept money lender's money. They may refuse to trade with the money lender. In this case, the woman needs the money lender to purchase the health food on her behalf. This service will eliminate the costly system that is often used by money lenders and other service providers to purchase and deliver the required health food. Sheswap (2011) noted that maternal mortality is still a problem in many regions of sub-Saharan Africa, particularly in rural areas of the continent. She also found that many women do not have access to adequate maternal health care. She also indicated that mothers are more likely to die during their reproductive years because of severe and preventable obstetric complications or if they are unable to seek treatment. The lack of access to health services and health care providers often lead to the death of their unborn baby, the death of the mother, or the death of the mother, the death of the baby, or the baby being stillborn. JustWheri is a project providing a solution for parents who want to get a reliable place, which they can register with, to list, leave comments, find, and join with other parents who have children in a specific location. JustWheri is similar to other programs, which provides a means for parents to find those who have children that are the same age or a similar age of their own child. JustWheri is different from those programs because it provides a secure and safe location to list. With this system, parents can register with the justWheri site and share their location, as well as the name of the school, kindergarten, or primary school their child attends. They will then be able to list and update information as their child progresses through this school. Sometimes, a child is born into a house which is problematic for them. This
