Valve (the creators of Counter-Strike, Half-Life and other games) presents Left 4 Dead, a co-op horror game for up to four players on PC and Xbox 360. 4 Dead 2 (L4D2) is the highly anticipated sequel to the award-winning Left 4 Dead, #1 co-op game of 2008. In L4D2, a group of four players will face a monster worse than the Pandora virus. Players will test their strength and become part of a unique and exciting experience. This is a game where you won't know when your adventure will start or end. However, don't worry, because Valve promises that with each stage you pass, you will become stronger, and the further you move through the network, the more the conditions around you will change. A whole world full of danger awaits you.
